Types of Intelligence and Intelligence Information Required to Meet  
USIA's Essential Needs

1. The IAC has approved IAC-D-82/4, 26 August 1954, subject to NIS Committee action to revise the NIS program in line with the recommendations of the USIA Survey.
2. The statement in the USIA Survey (part 2, paragraph 3a, page 5, IAC-D-82/1, 5 August 1954) which includes the phrase "to a lesser extent" was intended to mean that the statement of need (part 1, paragraph 3, pages 1 through 3, IAC-D-82/1, 5 August 1954) would meet military requirements to a lesser extent than it would meet the needs of other agencies because of the unique requirements of the Armed Services for additional information pertaining to enemy military personnel.
3. The Survey team purposely did not recommend the exact nature of the recommended expansion of the NIS program so that the NIS Committee would retain its flexibility to implement the report. The Chairman of the NIS Committee will place before the NIS Committee for action, when appropriate, specific recommendations for the expansion of NIS in line with the USIA Survey.
